Re: Application for IT Professional & Software Developer

Dear Hiring Manager,

I am writing to apply for the IT Professional & Software Developer position. As an IT Professional & Software Developer with practical experience in PHP, MySQL and HTML/CSS, I am confident that I can make a meaningful contribution to your team.

In my most recent role as ASSISTANT HRIO at Rexus Medical Centre, my work involved assisting in data entry and troubleshooting user queries and assisting in processing insurance claims, ensuring accuracy and timely resolution. I have also gained hands-on experience as an IT Support /Administrative Assistant at Jumkino Medical Center, Kericho, which strengthened my troubleshooting and communication skills.

I hold a Diploma in Information Technology from Kisii University, and I continue to build my expertise through certifications such as ICT Prefect and FIRST AID.

I would welcome the opportunity to discuss how my skills and experience can support your organisation. Thank you for your time and consideration; I look forward to hearing from you.

Yours faithfully,

EMMANUEL KIPROTICH KIRUI
